What are Challenges?

Every Mission is made up of Challenges. Challenges are questions which are location-based and safely placed wherever the Mission Manager chooses. There is a variety of types (AR Picker, Image 50/50, Sound Matcher, and others). Challenges also include Pre-Challenge information and Post-Challenge information to extend/enhance the players' learning experiences.

What is a Mission?

Different "Missions" (or "games") are published to the Agents of Discovery mobile app. These are created by Agents of Discovery "Mission Managers" and are specific to their site (e.g. a park, museum, or similar). Once players are physically present at a participating location (e.g. Griffith Park in Los Angeles), they can play the Mission. Each Mission consists of a map of the location, a Field Agent to guide players, location-based "Challenges" (or "questions") and rewards. Players unlock and solve the Challenges through exploration of the site.
