Mission: Demo Mission

Total Users¹
6297

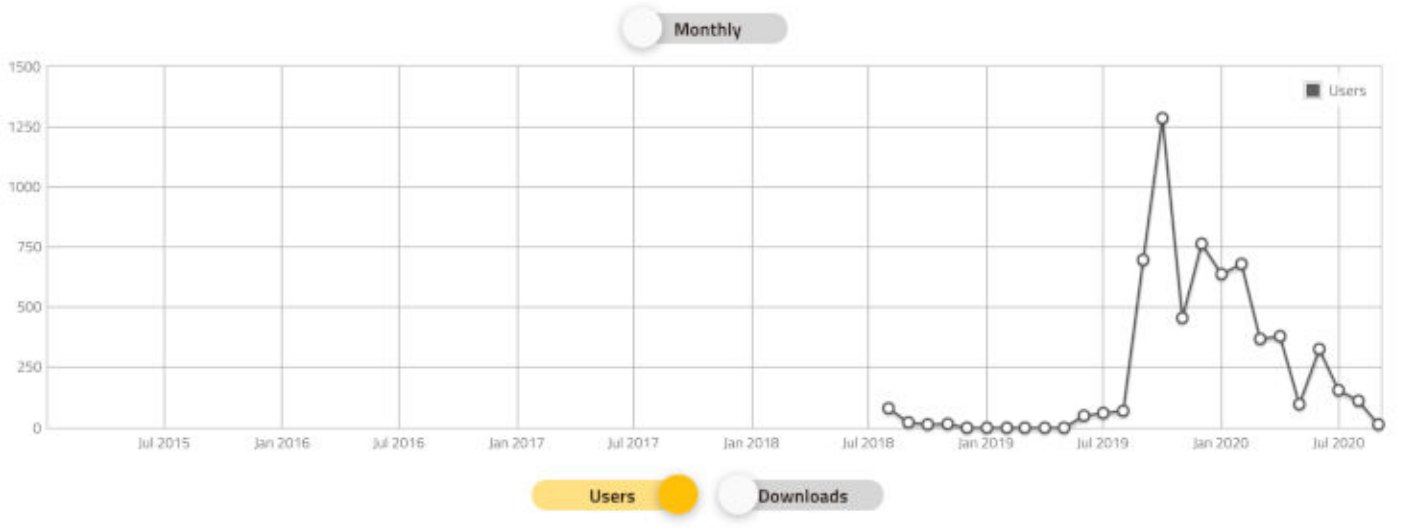

Average Monthly Users¹
241

Total Downloads
2249

Average Monthly Downloads
86

User and Download Distribution¹

When setting the distribution toggle to daily, we recommend you set the date range of the filter to a smaller time period.

Mission Statistics - Logged-in Players Only

Mission: Demo Mission

The vast majority of players will not log in. Instead, they will choose to play as a guest. Please refer to the Statistics on Total Users and Downloads in the previous section for information on players, downloads, and other aggregate data.

Data relating to individual players will only be recorded if players have logged in. General Mission data (such as downloads) does not require players to be logged in. Please encourage players playing your Mission to log in to their account when playing Agents of Discovery. To ensure logged in player data is synced when out of WiFi or mobile data range, logged in players should close and open the game once they have reconnected.

Challenge Success Rate²
93.71 %

USBees Earned²
2748

Total Time Played
12:20:25

Average Time Played
00:44:36

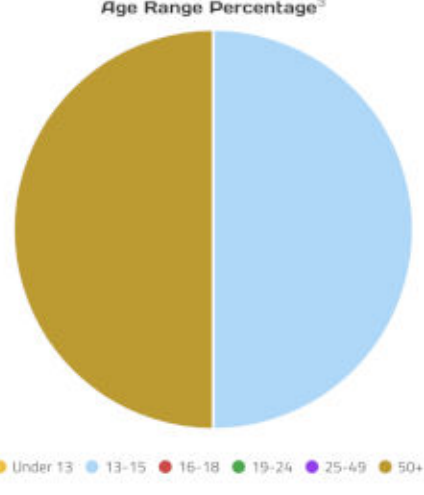

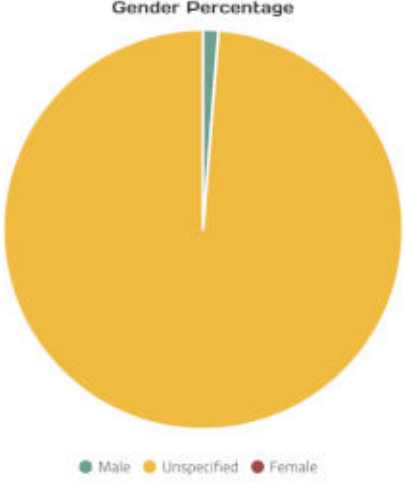

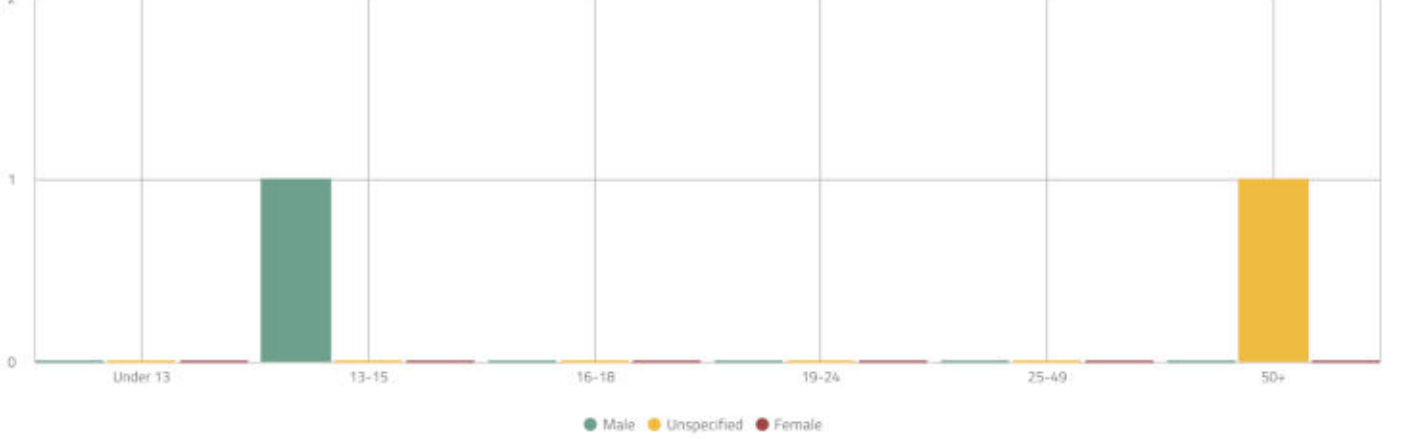

Total Distance Walked
218.10m

Average Distance Walked
15.58m

Player Demographics³

These charts provide demographic data on logged-in players who have provided their birth date and gender.

Age/Gender Distribution

Challenge Statistics²

This data shows the completion rates of all logged-in players for each approved Challenge. You can click on each Challenge name to see more detail.

¹Players commonly play AoD together in groups on one device. To get a better idea of how many players are visiting your Mission, we estimate user statistics by multiplying the number of downloads by 2.8.
²Data may be affected by variations in internet connectivity, whether a user has logged in since playing the Mission, and whether a user's account has been verified.
³Statistics regarding age do not include all logged in players, only those who have provided a birth year.
