1) Go to **Missions**, then find your new Mission and click on **Edit Map** next to the Mission Name.

2) Click and drag the **Challenge Markers** to place them in the desired location on your site. Additionally, you can:

- Click and drag anywhere inside the **red Bounding Box** to edit the **location** of your boundaries
- Click and drag the **red Bounding Box corners** to edit the **size / dimension** of your boundaries

3) When you're happy with the map, scroll down to the bottom of the **Edit Map** page, then click **Save.**

4) Back at the **Missions** page, click **Publish** next to the Mission for it to go live!

There will be a **green checkmark** underneath the "Published" column to let you know that it has been published! Don't forget to **promote** your Missions through on-site signage and social media to let your users know about it!
