

# HELP SMOKEY PREVENT WILDFIRES

(ALLING ALL TEACHERS,

I am so grateful for your help! I have been working 80 years to teach millions of Americans just like you about their role in preventing human-caused wildfires.

Here are the simple instructions for how you can get your students to play this fun game and help me celebrate my birthday. It's easy to implement in the classroom, free for all players, and available in both English and Spanish.

1. Download the **FREE Agents of Discovery App** from the **App Store** or **Google Play**. (If your school whitelists apps, ensure that the **Agents of Discovery** app is whitelisted.)
2. Open the app, click on **"Missions"**, and select the **Smokey Bear Mission** corresponding to your students' Grade:
  - a. **"Smokey Bear's 80th Birthday Mission (K-3)"** or **"Smokey Bear's 80th Birthday Mission (Grades 4-8)"**
3. Invite your students to tap on the **Challenge icons** and solve each Challenge.
4. **Have fun!**

To play in Spanish, go to **'Settings'** in the app and select **'Spanish'** from the **Language** dropdown menu. Then, search **"Misión del 80.º cumpleaños de Smokey Bear"** under **'Missions'** and get started!

SMOKEY

**DOWNLOAD AND  
PLAY FOR FREE**
